## HUNDREDS DEAD.

Bolivar, Trinidad, in the Hands of the Legalists,

Who Defeat the Government Forces in Battle.

The former appear before the city and demand its surrender, which is refused. A desperate and bloody battle results, in which each side loses in the neighborhood of 500 men.

New York, Aug. 15.—A special to The Herald from Trinidad, W. I., says news has reached that place that the city of Bolivar had fallen into the hands of the Legalists after a desperate battle. The Legalists, about 4,000 men, were under Generals Hernandez and Gil. They appeared before the city and demanded the government forces to surrender. The refusal precipitated the engagement which resulted in the government forces breaking and retiring from the field in disorder, leaving nearly 500 dead men on the field. The Legalists also lost about 500 men.

CHOLERA IN ST. PETERSBURG. Over 150 Cases and 31 Deaths from Aug. 1 to 12—Elsewhere.

St. Petersburg, Aug. 15.—It is officially admitted that there is cholera in St. Petersburg. A report just issued shows that there were 154 cases of cholera and thirty-one deaths from it in the city between Aug. 1 to 12. Thus far only working people have been attacked.

At Saratoff about one hundred cases are reported daily. The patients treated at the hospitals fare much better than those who are attended in private houses, a far larger number of the former recovering.

At the village of Yashkovka, in the province of Saratoff, a lady visiting the sick was narrowly escaped being murdered by the ignorant people, who accused her of coming to poison the patients. She was only saved by the intervention of a woman, who recognized the lady as a visitor who had brought her and the neighbors food and clothing during the famine.

Taking Precautions. BERLIN, Aug. 15.—(Owing to the progress of the cholera westwards the street railway administration has ordered that the through carriage traffic from Warsaw be discontinued and sanitary inspection instituted at Rastowka, Myslowitz, Pless and Ratibor.

DOCTORS AND TEACHERS. Several Wanted by Uncle Sam For the Indian Service.

WASHINGTON, Aug. 15.—The civil service commission has requisitioned for nine physicians for the Indian service and it is in need of eligible to fill the vacancies. There are no female physicians now on the register of eligibles. There is also a scarcity of eligible teachers for the Indian service. The regular fall examinations are being held in different parts of the country, at which applicants can be examined, and it may be found necessary to hold some special examinations to replenish the registers. Those wishing to be examined should write to the civil service commission, Washington, for application blanks and information.

Death from a Bee Sting. NEWBURGH, N. Y., Aug. 15.—Mrs. Stephen Berry, while out looking at her flower beds recently, was stung on the right temple by a honey bee. She went into the house and was immediately taken ill. Before a physician arrived Mrs. Berry died. Death occurred within thirty minutes of the time when she was stung. According to medical opinion the poison was implanted in an artery, and entering directly into the circulation quickly found its way to the heart. Mrs. Berry's age was sixty-five.

Young Love's Idyll. NORTHFIELD, Minn., Aug. 15.—Burt Revier and Charles Lemont, young men living at Dundas, three miles from here, both in love with Miss Lonkey, of their town, made an agreement to settle the matter by a fight in the presence of the young woman. Miss Lonkey was watching the encounter from a buggy, when the horse took fright and ran away, throwing her out. It is thought she is fatally hurt.

Played with a Revolver—Dead. WASHINGTON, Ind., Aug. 15.—The pretty little seven-year-old daughter of Henry Watkins and Thomas Sommers, eight-year-old son secured a revolver and began playing with it. It was in some way discharged, the ball struck the little girl and killed her almost instantly. The

parents of both children are grief stricken.

Didn't Know It Was Loaded. GALLIPOLIS, O., Aug. 15.—George and Robert Fisher, aged twenty-one and fourteen respectively, living near Veranda, W. Va., were fooling with a revolver that they did not know was loaded and it exploded in the hands of George Fisher, the ball passing through Robert's head. Death relieved his sufferings.

Boiler Explosion. STEUBENVILLE, O., Aug. 15.—The boiler of the Island Creek siding brick works, five miles above here, exploded. Norman Shepherd, the engineer, was scalded terribly, and little hopes are entertained for his recovery. Three gangways were shown at the time of the explosion.

General Trowbridge Dead. NEW HAVEN, Aug. 15.—General William Pettit Trowbridge, professor of mining engineering in Columbia college, died at his home here Friday afternoon, aged sixty-four years. His death was very sudden and is attributed to heart failure.

Appeal for Clemency. SAN ANTONIO, Tex., Aug. 15.—An appeal was forwarded from here Friday to President Harrison asking his clemency for the misadvised followers of Garza, imprisoned for violating the neutrality laws.

HIS HONOR PLAYED POKER. Likewise a Prominent Methodist and Several Other Notables.

WASHINGTON, Ind., Aug. 15.—The police made a raid at an early hour Friday morning on Bassett's gambling house. They broke down the doors and captured nine persons, among whom were the mayor of the city, an ex-county clerk, a prominent Methodist, and several other notables. All the players gave bond for their appearance. The sensation produced by the raid has no parallel in this city.

NEWS IN A NUTSHELL. Items of Interest Gathered from All Parts of the World.

General Gano Dunn suicided by shooting in Denver.

There is no cholera at Helmska, N. J. Summer complaint.

Chase's four-story elevator, New York, burned. Loss \$140,000.

Tenmen Golden wound up a spree at Akron, O., by shielding with morphine.

It is reported that the anarchists of New York have raised \$25,000 for Berkman's defense.

The Republicans of the Ninth Michigan district nominated John W. Mason for congress.

Kansas City will spend \$50,000 for street illumination during the Knights of Pythias encampment.

A dependent clerk of Vienna killed himself, wife and three children, by means of burning charcoal.

Fire in an abandoned mine under Mayfield, Pa., threatens to do incalculable damage to the town.

In the collapse of a building at Ogden, N. J., Friday afternoon, a dozen men were injured, four fatally.

John Drew, aged eighteen, was shot and killed near Savannah by Joe Tennison without provocation.

The first consignment of new crop of hops arrived at New York Friday by steamboat from Albany.

A race war is threatened at Tongana, Kan., over the assault of a white girl by a negro who is now in jail.

A falling tree killed Mrs. Abner Cowie, who was watching her husband fall it, near Parkersburg, W. Va.

The Indianapolis Citizens' national gas trust is laying pipes to a new field near Frankton. Other lines are in contemplation.

It is claimed that Ferdinand Allard, a poor Quebec blacksmith, has rediscovered the lost art of hardening copper until it holds an edge like the finest steel.

The rivalry between the packet lines running on the Illinois river out of Peoria reached that stage where firearms were brought into use. No one injured.

George Lewis, of Oregon, expected to welcome his wife who left him twelve years ago, but instead found the wife of another George Lewis awaiting him at the depot.

The suffering among the laboring class of the Mexican population on both sides of the Rio Grande is appalling. Many families have been living for days on cactus plant and mosquito beans.

A murderous burglar made his way into the residence of Rudolph Obermann, at 409 Nesho street, St. Louis, Friday night and when interrupted he shot and probably fatally wounded Obermann.

Lillie Buel, of St. Louis, young and pretty, was in love with George Lewis. Her uncle opposed the match, took her to Illinois and cut her hair off close to her head. She escaped and will marry George.

At Lansing, Mich., on Friday, Earl Price and Arthur Harts, both eight years of age, packed themselves into an unused ice box and the lid fell down, fastening them in. They were both dead when found by the father of the Harts boy.

## WITH DYNAMITE

An Aristocratic Cafe in Ostend is Wrecked.

Three People Killed and Several Injured

By the Flying Missiles, Which Spread Terror and Dismay Among the Fashionable Throng—No Clue, but It is Believed to Be the Work of Anarchists. Is the King's Life in Danger?

BRUSSELS, Aug. 15.—Great excitement prevails in Ostend over a dynamite outrage that resulted in three persons being fatally injured. Ostend is the favorite resort for the Belgian aristocracy. The king of the Belgians has a summer place there, and the visitors to the baths and other summer attractions include nobility from all parts of Europe, and especially from Russia, whose leading families make Ostend their favorite resort on the western shores of Europe.

The old Kaiser Wilhelm of Germany also was a frequent visitor to Ostend, and although the present Kaiser doesn't follow his grandfather's example, many noble German families still make Ostend their summer habitation. At present Ostend is thronged with visitors. One of the most aristocratic resorts is the Cafe du Prince Albert, called after the late prince consort of England, and much frequented by English sojourners, as well as by Russians and Germans.

Saturday, while a number of people were in the cafe, a dynamite cartridge exploded under one of the windows. The force of the explosion was terrific. The cafe was wrecked, the windows shattered, the tables broken and plates and glasses smashed and hurled about the room. Several persons in the cafe were wounded by the flying missiles, and three were fatally injured.

The spectacle was the most horrible ever seen in Ostend. People came running out from the cafe, their faces streaming with blood, adding to the dismay and terror of the fashionable throng that had gathered at the sound of the explosion.

The police rushed in and found several persons lying in the wreck with serious wounds, one of them unconscious and another almost dead, owing to the copious flow of blood from a gash in his temple. The wounded were at once conveyed to the hospital, or their stopping places, and efforts were made to ascertain who was guilty of the crime.

There was some talk of the dynamite being put there by the king's enemies, but the police were able to locate where it had been placed. So far, however, they are without any reliable clue as to the criminal.

Two persons of suspicious appearance arrived in Ostend from Paris in the early part of the week and were shown around the place by a suspected team of being thieves or swindlers. They paid their way, and as they did nothing to justify arrest they were not molested. They are now missing.

It is thought that perhaps they were anarchists and perpetrated the outrage in revenge for the king's escape from the attempt on his life by the dynamite.

The outrage has caused such dismay among the visitors at Ostend that a number of them have given notice of their intention to go elsewhere, as they fear that this is but the beginning of a series of outrages, aimed at the wealthy class who frequent the resort.

The guard at the palace of the king has been increased and sentinels on the fortifications have been directed to be specially vigilant in detecting and detaining suspicious persons. The royal despatch is said, has applied for additional protection.

INDIANS NEED ATTENTION. Two Men Killed at a Ranch on Coyote Mountain, Arizona.

WASHINGTON, Aug. 15.—More trouble with the Indians has occurred in Arizona. On Monday last Indians killed two men at the Davenport ranch, a Coyote Mountain, fifteen miles south of Sagar, A. E. Head and Rev. W. D. Duke sent the information from Denning to General Bliss, at Fort Bayard, N. M., and asked that some action be taken, as the Indians were still in the vicinity of the ranch, according to reports received Thursday through Pachuca mail carriers.

General Bliss wired department headquarters at Los Angeles, Cal., and Friday the adjutant general received a dispatch from Colonel H. C. Corbin, assistant adjutant general of the department of Arizona, telling of the murders.

The commanding officer at Fort Bowie has been directed to cause immediate investigation as to the presence of any Indians in the neighborhood where the murders were committed and orders have been given the commanding officer at San Carlos Indian agency to ascertain if any Indians are or have been absent from that reservation.

"THE CANAL QUESTION." The Empire of Toronto, Has Something to Say on the Subject.

TORONTO, Aug. 15.—The government organ, Empire, has an article on "The Canal Question" which seems to prepare the way for the abolition by the government of the rebate of canal tolls. The Empire says:

"Of course the government has to weigh the whole question of our relations with the United States and to decide what is best under the circumstances for the whole community, but for our part we should regret the withdrawal of the rebate now."

"It would bear all the appearance of yielding to pressure what was refused to a simple request of the Washington authorities. The government, however, has the whole responsibility in the matter and will doubtless decide as seems best for the general interest."

## RECIPROCITY WITH CANADA.

Proposals Which Will Be Presented to the Convention.

GRAND FORKS, N. D., Aug. 15.—Secretary McGinnis, of the chamber of commerce, has received a letter from E. E. Reynolds, the expert on international law, of Toronto, enclosing the point that he proposes that the coming international reciprocity convention shall take action upon. He suggests:

First—No duty by either country on natural products shipped between the two.

Second—Anything from any other country shall pass through the customs of each and be collected for at the point to which it is consigned.

Third—Each country shall be entitled to full privileges of the canals and waterways of the other.

Fourth—All railways shall have the right of way through any state or province, according to the laws of such state or province.

Fifth—Both shall co-operate in maintaining water ways from the lakes to the ocean, and the right over the same shall be equal in all respects.

Sixth—Cons of one country shall be accepted at par value in the other.

Seventh—All vessels, not including armed vessels, shall have equal rights in the harbors and waters of both countries.

Eighth—Citizens of either country shall have the right to carry on their occupation in the other country on the same terms as the citizens of that other country.

THEY'VE STRUCK IT. The Russian Treasure of \$4,800,000 is at Last Located.

NEW YORK, Aug. 15.—The World Saturday morning said:

Captain Thomas Simonds, of the hydraulic dredge Little Giant, that is anchored in the sound just south of Port Morris dock, was very serious yesterday. "We should hit it soon," said he to his chief assistant. He had been grappling day after day for something like \$4,800,000 lost with the British ship Hussar.

After the first plunge of the bucket about one cubic yard of mud was dumped upon the grating. When the men began to sort and wash for treasure the captain saw something yellow glittering in the silt and picked it up.

It was an English guinea of the time of George III. Half a dozen more were found, then two gold buttons from the uniform of a British naval officer. The next thing brought up a quantity of copper coin. Captain Simonds' weather-beaten face relaxed and he smiled.

"We are right over the stuff, I am certain," said he, "and I expect to have all of it up very soon." Then the bucket brought up two short bars, which, on being scraped, proved to be sterling silver.

That ended the find for the day, but it proved beyond doubt that Captain Simonds has located the lost Hussar and her enormous treasure and is perhaps on the threshold of great wealth for himself and other members of the family.

A DIMINUTIVE CRIMINAL. Boy of Ten Years Charged with Attempts to Wreck Trains.

BOWLING GREEN, O., Aug. 15.—Bert Stanton is in care of the sheriff here, charged with attempting to wreck a train. He lives in Jackson township, this county, and is only ten years of age. He admitted having placed a carlink in the frog of a switch on the Baltimore and Ohio railroad, and also to have opened a switch by means of a nail. He will be sent to the industrial school at Lancaster. The lad is quite small for his age, and when placed in the inner car of the Baltimore and Ohio train, he was found by the conductor, who was passing through the switch, and he was arrested.

CATHOLICS AT THE FAIR. The Pope Writes a Letter Concerning the Exhibition.

CHICAGO, Aug. 15.—Pope Leo has written a letter pertaining to the Catholic educational exhibit at the world's fair in which his holiness expresses great interest in the success of the fair, and particularly in the representation of the church and her educational methods, during the progress of the great exposition.

For some time great activity has been manifested in the different dioceses in this feature of the fair. Bishop Spaulding, of Peoria, will have the supervision of the Catholic educational exhibit.

A New Gun Carriage. NEW YORK, Aug. 15.—There was a very successful official test Friday at Sandy Hook on the pneumatic gun carriage. The working of the carriage delighted the army officers, and it was pronounced a decided success. It raised and lowered the monster fire beller as though it were a mere chip, and after each shot the gun disappeared below the breastworks with the carriage as if by magic, and without the least noise or confusion.

Shot At a Fair. LAWRENCEBURG, Ky., Aug. 15.—At the third day of the Lawrenceburg fair, Thomas Slaughter shot Frank Ely, of Lexington, twice, one ball taking effect in the right side and the other in the leg. The wounds are not considered dangerous. The difficulty occurred in a tent, and there are no witnesses. It is thought that they fell out over a game of cards or cards. Slaughter was arrested.

Foul Gas in a Well. LEAVENWORTH, Ind., Aug. 15.—John Beard, while working in a well, was overpowered by foul air, and called to his assistants to be lifted out. Near the top he fainted and fell back into the well, receiving dangerous injuries about the head and neck. He was dragged out in time to save his life.

## THE NEW TARIFFS

Are Very Objectionable to the Merchants of Havana.

Nearly All the Business Houses Close Their Doors

Because the Minister of the Colonies Refused to Suspend Them After They Had Earnestly Solicited Him to Do So. Spain Evidently Thought It Was a Bluff, But It Wasn't.

HAVANA, Aug. 15.—Nearly all the business establishments in this city have closed their doors in consequence of the refusal of the minister of the colonies to suspend the new tariffs. The merchants and others sent a telegram to the minister at Madrid a few days ago asking him to suspend the tariffs.

At a meeting held here on Aug. 8, to consider the subject, a majority of those present announced that they were ready to close their places of business if their request was not granted.

It was thought probable that the merchants would make a demonstration to show their disapproval of the action of the minister of colonies, but the government has issued an order prohibiting anything of the kind being done.

The extent to which business has been suspended here in protest against the continued imposition of the prevalent tariffs is shown by the fact that not a single animal was butchered in the slaughter house Friday for the market.

The governor general of Cuba and the president of the chamber of commerce held a conference Friday, in which they discussed at length the condition of affairs.

TRAGEDY AT RICHMOND, IND. William Jenkins Kills John Dixon, Another Walter—Accident or Murder?

RICHMOND, Aug. 15.—There was a tragedy at the Huntington House Friday noon. William Jenkins, a colored waiter, killed John Dixon, also colored, another waiter, but there is a difference of opinion as to whether he did it intentionally or accidentally. The men were in a yard back of the hotel, and the shooting was done with a revolver which Jenkins claimed he purchased Friday morning. He claims it was purely accidental. Dixon was shot through both lungs and the heart, and lived several minutes.

Jenkins and Dixon had worked together for about five years, and Dixon protests that they were the best of friends, although it is said they had often quarreled about Mrs. Jenkins, who had separated from her husband, and the mutual colored friends are siding with Jenkins, on the theory of accidental shooting.

It will take a very thorough investigation to establish the facts in the case.

SENATOR HOAR. His Resignation Now in the Hands of His Colleagues.

NEW BEDFORD, Mass., Aug. 15.—The Mercury Saturday morning announced that it had reliable information that United States Senator George F. Hoar had placed his resignation in the hands of his colleagues to be handed to the vice president upon the reassembling of congress.

His Son Laughed at It. WORCESTER, Mass., Aug. 15.—Colonel Rockwood Hoar, on being shown the New Bedford statement that his father, Senator Hoar, had placed his resignation in the hands of his friends, laughed at it and said there was nothing in it. His report of his father's health was favorable.

BLUFFING CANUCKS. Are Likely to Tell Harrison to "Fire Away."

OTTAWA, Aug. 15.—Several members of the government left the city Friday night to be present at a meeting of the cabinet to be held at Montreal with reference to the matter of canal tolls and discrimination against the United States in the question of rebate. It is regarded in official circles here that there is a strong likelihood, after all, that Sir John Abbott will not recede from the position that he has taken, but intends telling President Harrison to "fire away" with his retaliation.

CINCINNATI SELECTED. As Permanent Headquarters of Sons of Veterans.

HELENA, Mont., Aug. 15.—Cincinnati was selected as the place of the next encampment of the Sons of Veterans, and as permanent headquarters. A grand ball was given at the Auditorium Friday night.

The Light of the World. ST. LOUIS, Aug. 15.—One of the most attractive features in the illumination of the city during the fall festivities will be a large globe which will be erected at the intersection of Broadway and Olive street. This globe is one hundred feet in circumference and all the continents and the large islands of the ocean will be painted on its surface. The oceans, seas and lakes of the world will be designated by incandescent lights. It will take for this purpose 5,000 incandescent lamps of twelve candle-power each. The effect of this monster globe lighted up will be a magnificent one.

Greatest Gun Yet. READING, Pa., Aug. 15.—The winding of the great Brown wire segmental gun was completed Friday. Thirty-seven miles of wire one-fourth of an inch thick was used. The bore is five inches and the gun is intended to eclipse all of its kind of ordinary previous production. The completing of the winding was attended with appropriate ceremonies.

Over the Turn of Affairs at the Homestead Mills. HOMESTEAD, Pa., Aug. 15.—The executive committee of the American Federation of Labor arrived in Homestead at 11 o'clock Saturday morning and are now closeted with the members of the advisory committee.

"We find greatly to our pleasure," said President Gompers to the representative of the United Press, "that the Homestead men are in splendid condition and that everything points to a glorious victory. An opening will be held here this afternoon and this evening the committee will meet and the chances are that a statement will be drawn up and given to the press, outlining the position and presenting to the world the exact situation at Homestead."

Saturday morning a teamster from Bradock began transferring the household goods belonging to a non-union steel worker from the ferry to one of the company houses near the mill yards, on Eighth avenue. He was stopped by a crowd of strikers who ordered him to turn back with his load but he refused. Half an hour later he returned with the empty wagon and was again stopped by ten or twelve men. The leader of the crowd said:

"If we catch you here again we will break your head. We will not permit any man to bring scale's goods into this town. No white man would be guilty of such a thing."

The driver moved on, however, unmindful of the many epithets flung at him.

Over 200 non-union men occupied rooms in the company's houses back of Carnegie hotel last night. The houses were closely guarded and the occupants were not molested.

Another Outbreak. PITTSBURGH, Aug. 15.—Another outbreak between non-union workmen at the Carnegie Union mill, Thirty-third street, and the strikers occurred between 3 and 4 o'clock Saturday morning. At that hour the residents of Forty-first street were awakened by cries of "Police," "Help," "Murder," and other outcries of alarm.

A crowd of citizens and policemen were soon hurrying toward the mills and were met by the Teemer brothers from Sharpsburg, who have been working in the mills. Both of the brothers were great, excited and one of them had an ugly cut in his forehead from which the blood was streaming freely.

They said they had been set upon and roughly handled by a crowd of strikers, who were waiting for them. When they started to leave they were followed and one was knocked down. Their assailants escaped in the darkness unrecognized.

The Teemer boys have excited the special enmity of the strikers by the repeated violation of promises they have made to the strikers that they would not go to work in the mills until the present strike was settled.

## GOMPERS HAPPY

Over the Turn of Affairs at the Homestead Mills.

HOMESTEAD, Pa., Aug. 15.—The executive committee of the American Federation of Labor arrived in Homestead at 11 o'clock Saturday morning and are now closeted with the members of the advisory committee.

"We find greatly to our pleasure," said President Gompers to the representative of the United Press, "that the Homestead men are in splendid condition and that everything points to a glorious victory. An opening will be held here this afternoon and this evening the committee will meet and the chances are that a statement will be drawn up and given to the press, outlining the position and presenting to the world the exact situation at Homestead."

Saturday morning a teamster from Bradock began transferring the household goods belonging to a non-union steel worker from the ferry to one of the company houses near the mill yards, on Eighth avenue. He was stopped by a crowd of strikers who ordered him to turn back with his load but he refused. Half an hour later he returned with the empty wagon and was again stopped by ten or twelve men. The leader of the crowd said:

"If we catch you here again we will break your head. We will not permit any man to bring scale's goods into this town. No white man would be guilty of such a thing."

The driver moved on, however, unmindful of the many epithets flung at him.

Over 200 non-union men occupied rooms in the company's houses back of Carnegie hotel last night. The houses were closely guarded and the occupants were not molested.

Another Outbreak. PITTSBURGH, Aug. 15.—Another outbreak between non-union workmen at the Carnegie Union mill, Thirty-third street, and the strikers occurred between 3 and 4 o'clock Saturday morning.

At that hour the residents of Forty-first street were awakened by cries of "Police," "Help," "Murder," and other outcries of alarm.

A crowd of citizens and policemen were soon hurrying toward the mills and were met by the Teemer brothers from Sharpsburg, who have been working in the mills. Both of the brothers were great, excited and one of them had an ugly cut in his forehead from which the blood was streaming freely.

They said they had been set upon and roughly handled by a crowd of strikers, who were waiting for them. When they started to leave they were followed and one was knocked down. Their assailants escaped in the darkness unrecognized.

The Teemer boys have excited the special enmity of the strikers by the repeated violation of promises they have made to the strikers that they would not go to work in the mills until the present strike was settled.

No Boycott Yet. PITTSBURGH, Aug. 15.—The council of the American Federation of Labor has decided not to put a boycott on Carnegie products which they say are not large enough to justify them in ordering a boycott. A circular calling for funds to aid the strikers is being sent out.

After Colonel Strator. HARRISBURG, Aug. 15.—Governor Pattison has received a petition from citizens of Nanticoke asking the dismissal of Colonel Strator on account of the lams matter.

INDIANA BEATS THE WORLD. Vines of Iron, Tin and Lead Struck Wells Drilling a Gas Well.

ANDERSON, Ind., Aug. 15.—In drilling a gas well for Dr. Preston, the drill went through a vein of iron, at 675 feet, tin at 425 feet and lead at 300 feet.

Japan is a Joke. DENVER, Aug. 15.—Japan Wells has been elected governor of the China new nation. Wolfe is a full blood and does not speak a word of English. He is bitterly opposed to any legislation which has a tendency to advance his nation to the white man's place.

Three Negroes Killed. NANTUCKET, W. Va., Aug. 15.—News comes in to the effect that a hurricane on the Norfolk and Western railroad, a few miles from here, ran off the track and killed three negroes who were running it.

Family Difficulty Ends in Murder. OWINGSVILLE, Ky., Aug. 15.—Robert Booth shot and killed David Dale at the Sharpsburg fair. The trouble originated over a family difficulty, and had been brewing for some time. Booth was arrested.

Iron Works Shut Down. STEUBENVILLE, O., Aug. 15.—All the departments of the Jefferson iron works of this city, are shut down in consequence of the refusal of the managers to recognize the Amalgamated association.

Salisbury is Back. LONDON, Aug. 15.—Lord Salisbury, who Friday visited the queen at Osborne house, Isle of Wight, to tender the resignation of the ministry, returned to London Saturday morning.

Wool Will Go Up. NEW YORK, Aug. 15.—Bradstreet says that wool has now reached a minimum price and dealers expect an advance. American wool is of better quality than last year.

A Great Joke, This. PAULING, O., Aug. 15.—Two men named Buck and Burns thought to play a joke on a horse jockey, who had been here for some time training horses for William Weighl. They put some croton oil in a glass of lemonade and gave it to him. As a consequence the jockey nearly died. Buck was arrested, but his friends succeeded in securing his release and he left the county, and a fine running mare, belonging to John Keyck, left at the same time.
